

DATA SHEET

PRODUCT DESCRIPTION MONOCLONAL ANTI NUCLEOPROTEIN OF INFLUENZA B

CATALOG NO. MAB01ID

HOST Mouse

ISOTYPE IgG2a, kappa

CLONE F44A11

SPECIFICITY Specific for the Influenza B nucleoprotein.

- Reacts strongly with the following B strains:
B/Jiangsu/10/2003 (Yamagata-lineage); B/Brisbane/60/2008 (Victoria-lineage)
- No reactivity shown to the following influenza A strains:
A/SalomonIslands/3/2006; A/Panama/2007/99; A/Bayern/7/1995;
A/Duck/Singapore/97

PURIFICATION METHOD Protein G purified

PURITY >95% by SDS PAGE

FORM Liquid

QTY/PK 100 µg

STORAGE BUFFER PBS pH 7.2

APPLICATIONS NOTES Elisa, Microarray immunoassay, Western Blotting

STORAGE Store the product at 4° until opened, aliquot and freeze at -20°C. Avoid repeated freezing and thawing.

USAGE STATEMENT For research use only

REFERENCE An antigen microarray immunoassay for multiplex screening of mouse monoclonal antibodies. Cristina M., Nunziangeli L., Giubilei MA., Capuccini B., d'Episcopo L., Mazzoleni G., Baldracchini F., Spaccapelo R., Crisanti A.. Nat Protoc. 2010 Dec;5(12):1932-44. Epub 2010 Nov
