

DATA SHEET

PRODUCT DESCRIPTION **MONOCLONAL ANTI eGFP PROTEIN, HRP CONJUGATED**

CATALOG NO. **MAB0410AT**

HOST Mouse

ISOTYPE IgG1, kappa

CLONE ATG4H10

SPECIFICITY GFP Antibody detects GFP and GFP-tagged proteins exogenously expressed in cells. Please note that the GFP tag adds approximately 27kDa to the molecular weight of the fusion protein.

PURIFICATION METHOD Protein G purified

PURITY >95% by SDS PAGE

FORM Liquid

QTY/PK 50µl

STORAGE BUFFER PBS pH 7.2

APPLICATIONS NOTES Elisa, Microarray immunoassay, Western Blotting

STORAGE Store the product at 4° until opened, aliquot and freeze at -20°C. Avoid repeated freezing and thawing.

USAGE STATEMENT For research use only

REFERENCE An antigen microarray immunoassay for multiplex screening of mouse monoclonal antibodies. Cristina M., Nunziangeli L., Giubilei MA., Capuccini B., D'episcopo L., Mazzoleni G., Baldracchini F., Spaccapelo R. and Crisanti A.. Nat. Protov. 2010 Dec; 5 (12): 1932-44. Epub 2010 Nov.10.

DISCLAIMER This product is for research use only. If this product does not perform as described please inform us via e-mail support@pologgb.com with all the information you can provide, so that we can help you or offer you a replacement of the product.
