

DATA SHEET

PRODUCT DESCRIPTION MONOCLONAL ANTI GOAT IgG UNCONJUGATED

CATALOG NO. MAB08SC

HOST Mouse

ISOTYPE IgG1, kappa

CLONE RG4E5

SPECIFICITY Recognize conformational epitopes of goat IgG. No detectable cross-reactivity with other immunoglobulins.

PURIFICATION METHOD Protein G purified

PURITY >95% by SDS PAGE

FORM Liquid

QTY/PK 100µg

STORAGE BUFFER PBS pH 7.2

APPLICATIONS NOTES Elisa, Microarray immunoassay, Western Blotting in no-denaturing condition.

STORAGE Store the product at 4° until opened, aliquot and freeze at -20°C. Avoid repeated freezing and thawing.

USAGE STATEMENT For research use only

REFERENCE An antigen microarray immunoassay for multiplex screening of mouse monoclonal antibodies. Cristina M., Nunziangeli L., Giubilei MA., Capuccini B., D'Episcopo L., Mazzoleni G., Baldracchini F., Spaccapelo R., Crisanti A.. Nat Protoc. 2010 Dec;5(12):1932-44. Epub. 2010 Nov 10.
